Scholars to College
Program Description, Admission Criteria, & Benefits

Program Description

Scholars to College is a free cohort-model college-readiness program designed to assist ambitious, academically-focused, underrepresented first-generation students from Durham County for success at selective four-year colleges and universities. Students attend programming at the Center and are supported by a College Readiness Counselor to develop academic rigor and college-going competency, and to enhance their socio-emotional development and leadership skills. College Readiness Counselors act as mentors and advocates, supporting students in attaining exceptional achievement throughout high school and building robust summers that include academic, career, and work/volunteer experiences.

Student Admission Criteria

The Center is committed to enrolling students who are the best fit for the support this program provides. We are seeking students who demonstrate the following four characteristics:

Income & Residency: Students must reside in Durham County, NC and demonstrate financial need as evidenced by submitting a copy of the family’s most recent income tax return (sensitive information redacted) to verify their income levels demonstrate financial need according to federal income guidelines. Families may check for eligibility using chart provided (see page 4).

Leadership & Character: Students collaborate effectively with other students and adults, display high levels of ambition and persistence, and earn positive evaluations from their teachers or community leaders.

Academic Focus: Students have a history of academic success as evidenced by earning As and Bs in school and consistent proficiency on End of Grade (EOG) and End of Course (EOC) tests. Students should also demonstrate intellectual curiosity and a *strong desire to achieve*.

Family Support: Students whose families will make the commitment required to participate actively in the program, provide or arrange transportation as needed, attend parent meetings, and support the student’s development into a college-going student.

Program Benefits

Students selected for this **free**, four-year, year-round program will benefit from guidance and support in the areas critical to successful four-year college readiness:
